

VINCENT CHIBUIKE EKE

Software Engineer | Java Backend Developer | React Frontend Developer

Location - Lagos | **Phone** - (+234) 816 478 4544 | **Email** - vincentlawrence077@gmail.com
GitHub - github.com/vincentlawrencesnr

Software Engineer with a strong foundation in Java, React, JavaScript, SQL, HTML, CSS and Bootstrap. Passionate about building responsive, user-focused applications and continuously expanding backend development skills with C# and .NET. Recognized for developing high-quality academic projects, including Moonlight Events, while writing clean, maintainable and scalable code.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, C#, C, SQL, HTML5, CSS3
- **Frontend:** React, Bootstrap, Responsive Design, CSS Modules
- **Backend:** Java (JDBC), C# (.NET - learning)
- **Database:** MySQL, SQL
- **Tools:** Git, GitHub, VS Code, Visual Studio, IntelliJ IDE

FEATURED PROJECTS

- **Moonlight Events :** Designed and developed a modern React-based event management website with responsive layouts, reusable components, smooth animations (AOS), filtering, and polished UI/UX.
- **InstantBite (Ongoing) :** Food ordering platform built with React featuring shopping cart functionality, reusable components, responsive design, and dynamic state management.

PROFESSIONAL EXPERIENCE

VALON CONSULTING GROUP (Remote)

Front-end Developer (February 2026 – May 2026)

- Collaborated with backend developers, UI/UX designers and project stakeholders to build responsive web interfaces, integrate SQL-backed data, and contribute to sprint planning and technical implementation.

APTECH COMPUTER EDUCATION, LAGOS, NIGERIA

Front-end Development Industrial Training (September 2025 – December 2025)

- Partnered with the Backend team to bridge frontend components with SQL databases, ensuring precise data mapping and optimizing query performance for seamless user experiences.

- Collaborated within a multidisciplinary team of UI/UX designers and backend engineers to translate complex business requirements into high-performance, responsive web interfaces using HTML5, CSS3 and JavaScript frameworks.

EDUCATION

- Aptech Computer Education, Lagos, Nigeria – BSc (Hons) Software Engineering (in view)
- University of Benin, Nigeria – Bachelor of Nursing Science (BNSc)

INTEREST

Problem Solving • Strength Training • Technology Research.
